Skills

- C++, Java, C#
- JavaScript, HTML5, CSS3
- React, Tailwind CSS, Bootstrap
- Node.js, Express.js, Socket.IO, PHP
- MySQL, MongoDB
- Git, GitHub, Vite
- Agile & Scrum Methodologies

Education

BSc in Computer Science & Engineering, 2025
American International University - Bangladesh (AIUB)
CGPA: 3.26 out of 4

Higher Secondary Certificate, 2019
Milestone College
GPA: 5 out of 5

Secondary School Certificate, 2017
Shahajuddin Sarker Model School & College
GPA: 5 out of 5

Summary

Highly motivated Computer Science graduate specializing in software engineering, with a strong foundation in full-stack web development, including JavaScript, React, Node.js, Express.js, and Socket.io. Proficient in architecting and developing web applications, skilled in database management and version control. Adept at problem-solving, critical thinking, and team collaboration. Passionate about writing clean, maintainable code, continuous learning, and leveraging modern technologies to enhance business outcomes and deliver impactful digital solutions.

Projects

Mental Health Tracker

[Live](#) | [GitHub](#)

Tech Stack: React.js, Tailwind CSS, React Router, Vite

- Built an interactive self-care app with mood tracking, journaling and mindfulness features.
- Designed a responsive UI with dark mode, emoji input, and validation.
- Optimized state management and routing for user experience.

Real-Time Chat Application

[Frontend \(GitHub\)](#) | [Backend \(GitHub\)](#)

Tech Stack: React.js, Tailwind CSS, Node.js, Express.js, Socket.IO

- Built real-time messaging with Socket.IO.
- Added message edit/delete with confirmation and dynamic updates.
- Enabled chat history and environment-based setup.

Book Management System

[GitHub](#)

Tech Stack: HTML, CSS, JavaScript, PHP

- Created a CRUD-based book tracker with category filters and search functionality.
- Designed a clean, user-friendly interface for easy navigation and updates.
- Enabled classification by genre for better content organization.

Ecommerce Project API

[GitHub](#)

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, JWT

- Developed a comprehensive, secure backend API using a RESTful, service-controller-model architecture.
- Implemented full CRUD operations for products, shopping carts, wishlists, and user profiles.
- Integrated JWT for secure user authentication and enabled product filtering by category, brand, and keyword.

Core Competencies

- Problem solving, critical thinking & adaptability.
- Team collaboration, effective communication & leadership.
- Proven time management & organizational skills.
- Passionate about technology, innovation & continuous learning.
